

1° Semestre

ENVIRONMENTAL AND SUSTAINABLE BUILDING ENGINEERING

FIRST YEAR	MON	TUE	WED	THU	FRI
	26	23	26		
9:30 - 10:30	Digital modelling for architecture	Hydraulic infrastructures	Remote sensing and GIS		
10:30 - 11:30	Digital modelling for architecture	Hydraulic infrastructures	Remote sensing and GIS		
11:30 - 12:30	Digital modelling for architecture	Hydraulic infrastructures	Remote sensing and GIS		
12:30 - 13:30	Digital modelling for architecture	Hydraulic infrastructures	Remote sensing and GIS		
CLASSROOM	26	23	26		26
14:00 - 15:00	Remote sensing and GIS 14:30	Hydraulic infrastructures	Architectural design for sustainable building		Digital modelling for architecture
15:00 - 16:00	Remote sensing and GIS	Hydraulic infrastructures	Architectural design for sustainable building		Digital modelling for architecture
16:00 - 17:00	Remote sensing and GIS	Hydraulic infrastructures 17:30	Architectural design for sustainable building		Digital modelling for architecture
17:00 - 18:00	Remote sensing and GIS		Architectural design for sustainable building		Digital modelling for architecture
18:00 - 19:00			Architectural design for sustainable building		

SECOND YEAR	MON	TUE	WED	THU	FRI
	22		22	22	
9:30 - 10:30	Structural dynamics 10:00		Structural dynamics	Architectural engineering for sustainable buildings and environment	
10:30 - 11:30	Structural dynamics		Structural dynamics	Architectural engineering for sustainable buildings and environment	
11:30 - 12:30	Structural dynamics		Structural dynamics	Architectural engineering for sustainable buildings and environment	
12:30 - 13:30	Structural dynamics		Structural dynamics	Architectural engineering for sustainable buildings and environment	
CLASSROOM				22	
14:00 - 15:00				Architectural engineering for sustainable buildings and environment	
15:00 - 16:00				Architectural engineering for sustainable buildings and environment	
16:00 - 17:00				Architectural engineering for sustainable buildings and environment 17:30	
17:00 - 18:00					
18:00 - 19:00
