

# PUBLIC PLANNING | PUBLIC SPACE AND THE RIGHT TO THE CITY

MASTER THESIS WORKSHOP IN URBAN PLANNING

PROF. BARBARA PIZZO | [BARBARA.PIZZO@UNIROMA1.IT](mailto:BARBARA.PIZZO@UNIROMA1.IT)

## TOPIC

The Lab will work on real urban projects under deliberation at the local level, on the reasons for contestation and the related requests posed by the civil society. We will take into consideration possible alternative proposals, highlighting which idea of the city they convey and contribute to realize; we will try to develop a project that responds as much as possible to the different needs, focusing and trying to give sense to incompatibilities, their origin and their meaning for the city.

## EDUCATION & TRAINING OBJECTIVES

To prepare young professionals to work to respond with technical competence to the demands of civil society; to put forward and develop alternative proposals to the dominant ones, overcoming contestation for disputed and unwanted urban transformations, experimenting with the shift from antagonism to agonism

## ADMISSION & INFORMATION

See detailed file!

**Erasmus students are welcome!**
