

Academic year 2025-2026

Admission methods for the Master's Degree with entry requirements and academic knowledge assessment in:

Management Engineering

Faculty of Information Engineering, Computer Science, and Statistics

Class: LM-31; code to be entered on Infostud: **33512**

1. Stages of the procedure

For admission to the master's degree, it is required to:

- a. **Pay** the € 10,00 fee in compliance with the methods and deadlines indicated in section 3.
- b. **Wait for the outcome** of the entry requirements assessment. **If the requirements are not met**, it is possible to acquire the missing credits by passing single exams. The methods and costs are set out in "*Single Courses*" of the Student Regulations [Go to the Student Regulations](#)
- c. **Carry out the academic knowledge assessment** in the modalities indicated in section 4.
- d. **Proceed to enrolment** by paying the master's degree enrolment tuition fees in accordance with the procedures and deadlines indicated in section 5.
Enrolment can only take place when the Student Affairs Office sends an email notification of the successful outcome of entry requirements and academic knowledge assessment.

Candidates from other Italian universities

Those who come from other Italian universities, after having made the payment, must send by e-mail to the Educational Affairs Office (segreteriaadidattica@diag.uniroma1.it) by the same dates provided for the application for the assessment of entry requirements, self-certification of the educational qualification obtained with the indication of the Degree programme Class, the exams taken and the scientific-disciplinary sectors corresponding to the subjects and a copy of the payment of the € 10.00 fee.

Failure to submit the declaration of previous educational career or the negative result of the assessment of curricular requirements entails the impossibility of enrolling in that specific degree programme.

Candidates who have not graduated yet

If the programme regulations provide for it, candidates who have not yet graduated (from Sapienza University of Rome or other universities) may also apply for entry requirements assessment, without prejudice to the obligation to graduate by January 24, 2026 (for those who have not yet graduated from Sapienza University of Rome) and by December 20, 2025 (for those who have not yet graduated from other Italian and international universities).

For candidates coming from foreign countries and/or in possession of a qualification obtained in a non-Italian education system

Procedures for candidates coming from foreign countries are indicated in section 6.

Entry requirements

Admission to the Master's degree programme requires the fulfilment of the necessary curricular requirements and adequate academic knowledge.

Curricular requirements are:

(i) possession of a three-year university degree or diploma or another qualification obtained abroad and deemed suitable;

(ii) the knowledge and competencies acquired to obtain the qualification referred to in point (i), expressed in terms of ECTS acquired with reference to groups of foundation and core scientific-disciplinary sectors.

In particular, the degree programme is open to graduates in classes L-8 and L-9 (ex Ministerial Decree 270/2004) who have acquired at least 12 ECTS in the following Scientific-Disciplinary Sectors:

ING-IND/16 - Processing technologies and systems
ING-IND/17 - Industrial mechanical systems
ING-IND/35 - Economic and management engineering
ING-INF/04 - Automation

For those with degrees in other classes, the following curricular requirements apply:

1) have acquired at least 81 ECTS in the following Scientific-Disciplinary Sectors

INF/01 - Computer science
ING-INF/05 – Information processing systems
MAT/02 - Algebra
MAT/03 - Geometry
MAT/05 - Mathematical analysis
MAT/06 - Mathematical probability and statistics
MAT/07 - Mathematical physics
MAT/08 - Numerical analysis
MAT/09 - Operational research
SECS-S/01 - Statistics
SECS-S/02 - Statistics for experimental and technological research
CHIM/03 - General and inorganic chemistry
CHIM/06 - Organic chemistry
CHIM/07 - Chemical fundamentals of technology
FIS/01 - Experimental Physics
FIS/02 - Theoretical physics, mathematical models and methods
FIS/03 - Physics of Matter
FIS/04 - Nuclear and subnuclear physics
FIS/05 - Astronomy and Astrophysics
FIS/06 - Physics for the earth system and the circum-terrestrial medium
FIS/07 - Applied physics (to cultural and environmental heritage, biology and medicine)
FIS/08 - Didactics and history of physics
ING-IND/**
ING-INF/**

Of which:

2) at least 36 ECTS in the following Scientific-Disciplinary Sectors:

INF/01 - Computer science
 ING-INF/05 - Information processing systems
 MAT/02 - Algebra
 MAT/03 - Geometry
 MAT/05 - Mathematical analysis
 MAT/06 - Mathematical probability and statistics
 MAT/07 - Mathematical physics
 MAT/08 - Numerical analysis
 MAT/09 - Operational research
 SECS-S/01 - Statistics
 SECS-S/02 - Statistics for experimental and technological research
 CHIM/03 - General and inorganic chemistry
 CHIM/06 - Organic chemistry
 CHIM/07 - Chemical fundamentals of technology
 FIS/01 - Experimental Physics
 FIS/02 - Theoretical physics, mathematical models and methods
 FIS/03 - Physics of Matter
 FIS/04 - Nuclear and subnuclear physics
 FIS/05 - Astronomy and Astrophysics
 FIS/06 - Physics for the earth system and the circum-terrestrial medium
 FIS/07 - Applied physics (to cultural and environmental heritage, biology and medicine)
 FIS/08 - Didactics and history of physics

3) and at least 12 ECTS in the following Scientific-Disciplinary Sectors:

ING-IND/16 - Processing technologies and systems
 ING-IND/17 - Industrial mechanical systems
 ING-IND/35 - Economic and management engineering
 ING-INF/04 - Automation

A B2 level proficiency in the CEF (Common European Framework) for the English language is also required. This proficiency is attested by possession of an appropriate CEF certificate, or by the previous acquisition of at least 3 ECTS in the form of an "English language qualifying exam" (Scientific-Disciplinary Sector: L-LIN/12 Language and Translation - English language). In the absence of the above-mentioned qualifications, it is necessary to undergo an interview to verify the candidate's proficiency in English.

Those who have obtained a degree in Management Engineering from the Sapienza University of Rome meet the curricular requirements for admission to the master's degree programme.

Those who do not hold a degree but who have passed all the exams required to obtain the qualification used to access the master's degree programme may also apply for the entry requirements assessment, without prejudice to the obligation to graduate by January 24, 2026 (for those who have not yet graduated from Sapienza University of Rome) and by December 20, 2025, (for those who have not yet graduated from other Italian and international universities).

For those who have obtained a degree abroad (with particular reference to non-EU countries), the fulfilment of the necessary curricular requirements for admission to the degree programme will be assessed by a special committee appointed by the Area Educational Board.

2. Entry requirements assessment

The assessment of entry requirements is requested by paying a fee of €10,00 from July 2, 2025, to one of the following dates of your choice:

- September 16, 2025 (only date available for non-EU candidates who request a student visa)
- October 16, 2025
- November 18, 2025

- December 16, 2025
- January 15, 2026 (date reserved for those who have already graduated or are about to graduate from Sapienza University of Rome).

Payment is generated on the Infostud system.

Payment is made online via PagoPA (direct payment).

The **code** to be entered in the system is **33512**.

[Read the instructions](#)

The outcome of the entry requirements assessment will be communicated to the institutional mailbox (if activated) or to the personal email address declared on Infostud.

3. Assessment of academic knowledge

Admission to the Master's degree programme requires the fulfilment of the necessary curricular requirements and adequate academic knowledge.

The adequacy of the academic knowledge is assessed on the basis of the results obtained in the educational qualification used to gain admission to the Master's degree programme and, where necessary, through a specific admission test.

For candidates who have obtained a degree in Italy, academic knowledge is deemed adequate if at least one of the following conditions is met:

(a) achievement a weighted average (with ECTS) of at least 24/30 in the grades obtained in the exams taken for the degree, and that exams in the following subjects (or equivalent subjects) were taken for the award of the same degree

- Economics and Business Management (Scientific- Disciplinary Sector "ING-IND/35 - Economics and Management Engineering)
- Industrial Plants (Scientific-Disciplinary Sector "ING-IND/17 - Industrial Mechanical Systems")
- Operations Research (Scientific-Disciplinary Sector "MAT/09 - Operations Research")

(b) achievement of a grade of at least 24/30 in each of the exams relating to the following subjects (or equivalent subjects):

- Economics and Business Management (Scientific- Disciplinary Sector "ING-IND/35 - Economics and Management Engineering)
- Industrial Plants (Scientific-Disciplinary Sector "ING-IND/17 - Industrial Mechanical Systems")
- Operations Research (Scientific-Disciplinary Sector "MAT/09 - Operations Research")

In this case, students may gain access to the Master's degree programme without having to take the Admission Test if they meet the curricular requirements defined above.

If, instead, none of the above conditions (a) and (b) for assessing the adequacy of academic knowledge are met, the Admission Test must be taken. The syllabus of the Admission Test corresponds to the syllabus of the following subjects of the Management Engineering degree at Sapienza University of Rome:

- Economics and Business Management (Scientific- Disciplinary Sector "ING-IND/35 - Economics and Management Engineering)
- Industrial Plants (Scientific-Disciplinary Sector "ING-IND/17 - Industrial Mechanical Systems")
- Operations Research (Scientific-Disciplinary Sector "MAT/09 - Operations Research")

The Admission Test must be taken with exclusive reference to the syllabus of the subjects in which a mark below 24/30 was obtained.

The Admission Test may ascertain adequate or inadequate academic knowledge. In the latter case, enrolment in the Master's degree programme is not permitted.

Those who have not yet graduated but who have passed all the exams required to obtain the degree used to gain access to the Master's degree programme (if conditions (a) and (b) above are met) **may also take the Admission Test.**

For the academic year 2025-2026, two test dates are scheduled for the Admission Test: the first in September-October 2025 and the second in November-December 2025. Participation in the September-October 2025 test date does not preclude participation in the November-December 2025 test date if inadequate knowledge was found as a result of the first test date.

The second (and last) test date for the Admission Test within the academic year 2025-2026 will be held before December 15, 2025 (in any case after November 18, 2025). Therefore, **those who do not meet any of the conditions (a) and (b) will necessarily have to apply for entry requirements assessment by November 18, 2025**, in order to be able to participate in the last test date of the Admission Test scheduled for the 2025-2026 academic year.

Successful results in the Admission Test will in any case be invalid if candidates are unable to meet the enrolment deadlines for the degree programme in the 2025-2026 academic year.

Further information on the Admission Test (including the timetable of the dates and procedures) can be found on the website: www.ingegneriagestionale.uniroma1.it.

For those who completed a degree abroad (with particular reference to non-EU countries), the adequacy of academic knowledge for admission to the degree programme will be assessed by a special committee appointed by the Area Educational Board.

4. Enrolment

Enrolment is obtained through payment of the enrolment tuition fees, after successful completion of the entry requirements and academic knowledge assessment.

Payment is generated on the Infostud system.

Payment is made online via PagoPA (direct payment).

The **code** to be entered in the system is **33512**.

[Read the instructions](#)

The terms for paying the first instalment are indicated in the Student Regulations, Part II "*Contribuzione studentesca*", under the section "*Payment deadlines*"

[Go to the Student Regulations](#)

5. Candidates with an educational qualification obtained in a non-Italian education system

Procedures differ according to nationality and country of residence.

For those with citizenship in non-EU countries, residing abroad and applying for a study visa, and for those from China and participating in the Marco Polo project who choose the English language curriculum

In these cases, it is necessary to have the mandatory pre-acceptance letter.

The procedures to be followed are indicated in section 7 of the International Student Office page

[Read section 7](#)

For those with non-EU citizenship, permanently residing abroad, who apply for a visa for study purposes that choose the Italian language curriculum they are not obliged to get the pre-acceptance letter but must pass the **Italian language proficiency test** (level B2), or must have an Italian language certificate of at least level B2, issued by recognised organisations (<https://www.esteri.it/it/diplomazia-culturale-e-diplomazia-scientifica/cultura/promozionelinguaitaliana/certificazioni-linguistiche>) as indicated in the Ministry of University and Research Circular.

For information about the Italian language knowledge test go to the dedicated page:
<https://www.uniroma1.it/en/notizia/italian-language-test-international-students>
<https://www.studiare-in-italia.it/studenti stranieri>

For those with Italian citizenship, for those with citizenship in EU countries (regardless of country of residence) and for those with citizenship in non-EU countries with a residence permit in Italy

The procedures referring to these cases are indicated in section 8 of the International Student Office page

[Read section 8](#)

Enrolment procedures for those with an educational qualification from a non-Italian education system

Following the successful outcome of the entry requirements assessment, or upon receipt of the pre-acceptance letter, those in possession of an educational qualification obtained in a non-Italian education system must complete the enrolment procedure for the two-year Master's degree programme as indicated in section 4 of the International Student Office page

[Go to section 4](#)
